Bachelor of Technology in Computer Science Engineering- CGPA- 7.95

NarayanaN120 Jr College

Intermediate education in MPC-81.6%

Viswa Bharathi E.M High School

Secondary Education- CGPA- 9.5

Amaravathi, Andhra Pradesh Aug. 2021 – present Vijayawada, Andhra Pradesh Jun. 2019 – Jun. 2021 Gudivada, Andhra Pradesh Up to Apr 2019

PROJECTS

Food Delivery Full Stack

Project Overview: Developed a comprehensive food delivery platform with end-to-end features, including customer registration, food listing and order placement.

Key Responsibilities:

- Designed and implemented a responsive front-end interface using React.js, HTML5, CSS3, and JavaScript.
- Developed a robust back-end system with Node.js and Express.js to handle server-side logic and database interactions.
- Managed and optimized a MongoDB database for efficient data storage and retrieval.
- Integrated Stripe API for seamless payment processing, ensuring secure and smooth transactions.
- Implemented secure authentication and authorization mechanisms using JSON Web Tokens (JWT). **Technologies Used:** React.js, Node.js, MongoDB, JWT, Stripe API, HTML5, CSS3, JavaScript

Web-Scrapper using Python

Project Overview: Created a Python-based web scraper to extract data from a specified website.

Key Responsibilities:

- Utilized Python libraries, including requests and Beautiful Soup, to send HTTP requests and parse HTML content.
- Extracted key information such as the webpage title, paragraph texts, and hyperlinks from the target website.
- Implemented error handling to manage unsuccessful HTTP requests and ensure robust scraping operations.

Technologies Used: Python, requests, Beautiful Soup, Web Scraping

TECHNICAL SKILLS

• Languages: Java, SQL

• Web Development: HTML, CSS, JS, React.js, Node.js

Development Tools: GitHub, Visual Studio
